

I listen to KLOVE in Campbel CA on 91.9 and when I am on business I listen to 92.1 in Austin TX. I am comforted by what they say and play on these radio stations. It would be devastated if the LPFM service be put into effect and I would loose these wonderful stations. During the stresses of life a radio station like KLOVE provides me much relief.

I have heard that others have been effected greatly by this music and positive message. There are even times that peoples lifes have been saved by the consuling they give. We contribute to the station because we believe in this cause and it would be a crime if this was taken away due to LPFM.

I appreciate you considering my plea and for not putting into effect the LPFM. My community and myself would be disappointed.

Regards,

Phil Nicholson
